

Jabil Healthcare is the industry's largest provider of design, engineering and manufacturing solutions. We collaborate with the world's leading healthcare brands to deliver advanced products and services that support optimal patient outcomes. Jabil Healthcare is a key division of Jabil, a manufacturing solutions provider that delivers comprehensive design, manufacturing, supply chain, and product management services. Leveraging the power of over 200,000 people across 100 sites strategically located around the world, Jabil simplifies complexity and delivers value in a broad range of industries, enabling innovation, growth and customer success.

CONSUMER HEALTH

END-TO-END SOLUTIONS

In Ireland, Jabil Healthcare has two state-of-the-art design and manufacturing sites in Bray and Waterford with world-class capabilities in design, injection molding, and complex assembly for industrialization and finished pharmaceutical packaging. More recently, we've added a newly qualified GMP 3D additive manufacturing suite.

Our purpose-built facilities support stringent healthcare requirements including ISO 13485 and Eudralex Vol. 4 certification for key product franchises. Our processes and high-quality systems are designed to protect our customers' intellectual property. We scale our design services to meet our customers' needs—from delivering discrete design work packages to managing complete device development projects in mechanical design, connectivity, electronic design, system miniaturization, as well as DFM and DFA for large volume manufacturing.

STRATEGIC CAPABILITIES

-  ADDITIVE MANUFACTURING
-  AUTOMATION DEVELOPMENT
-  CLEAN ROOM OPERATION (CLASS 7 & 8)
-  COMPLEX AUTOMATED ASSEMBLY & INTEGRATION
-  CT SCANNING
-  DESIGN FOR ENGINEERING
-  DEVICE DEVELOPMENT
-  DRUG HANDLING
-  DESIGN VERIFICATION TESTING
-  HIGH-VOLUME MANUFACTURING
-  METROLOGY
-  MOULD TOOL DESIGN & ENGINEERING
-  PLASTIC INJECTION MOULDING
-  PRECISION MOULDING
-  INTELLIGENT DIGITAL SUPPLY CHAIN
-  ULTRA-SONIC WELDING

Jabil Healthcare Ireland has been recognized as a manufacturing leader with many acknowledgements, including:

- Medical Technology Company of the Year
- IIE Global Lean Award & Lean Plant of the Year Award 2016 & 2017
- GSK Environmental Sustainability Award 2019
