

JABIL

Penang

Quality Solutions Across the Entire Product Lifecycle

Incorporated in 1995, Jabil Penang is located in the Bayan Lepas Free Trade Zone, close to major air and seaports, and road and railway links to Peninsular Malaysia. Occupying over a million sq. ft., Jabil Penang's strategic location, superior capabilities in any-mix, any-volume manufacturing, and supply chain management offer companies in search of cost-effective, quality solutions an unparalleled advantage.

Jabil Penang offers end-to-end solutions in manufacturing, testing, and distribution including printed circuit board assembly, new product introduction, surface-mount technology processes, box-build with build-to-order and configure-to-order models, and root-cause failure analysis. The facility's implementation of Lean Six Sigma, automated process lines, and smart factory capabilities, particularly in the areas of predictive analytics and big data, revolutionize manufacturing efficiency, offering even greater productivity and efficiency than before.

Operating 24/7, Jabil Penang serves global customers across a diverse range of industries including capital equipment, computing and storage, defense and aerospace, healthcare, industrial and energy, networking, and telecommunications.

Jabil Penang offers end-to-end solutions in manufacturing, testing, and distribution including printed circuit board assembly and new product introduction.

With highly innovative and responsive teams that are committed to delivering the highest quality products, services, and supply chain management processes in the industry, Jabil Penang is the proud recipient of numerous industry awards and is consistently rated by customers as "Best in Class" in the areas of technology, quality, responsiveness, delivery, cost, environmental awareness, and business management.

Penang

Shared Services Capabilities

GBC IT

Center of Excellence — ERP and SCM applications, quality and shop floor applications, service desk and IT infrastructure, B2B and EDI

GBC FINANCE

Asia: accounts payable, inter-company, corporate cost management; principal: accounts receivable and management accounting

GBC SCM

Material quotation services, supply chain management, full supplier compliance services, centralized procurement

Manufacturing Capabilities

- Advanced manufacturing technology lab
- Advanced mechanical assemblies
- Any-mix, any-volume
- Automation engineering lab
- Build-to-order/configure-to-order
- Cleanroom assembly
- Direct fulfillment
- E-dashboards and control towers
- Failure analysis lab
- Fluidics

About Jabil

Jabil's unique combination of global expertise, ingenuity, analytics, and financial performance has contributed to the success of the world's most well-known brands. We help companies design, build, and take their products to market quickly, affordably, and efficiently. But more than that, Jabil helps customers intelligently design their supply chains to be agile, economical, and effective even in uncertain times.

We provide supply chain services for some of the world's most respected and trusted brands in a broad range of industries including defense, aerospace, automotive, clean technology, computing, consumer, industrial, instrumentation, healthcare, networking, peripherals, storage, and telecommunications.

- High complexity electro-mechanical assembly
- Machine-to-machine (M2M) communications
- Medical equipment
- Optics
- Supply chain control
- Wireless backhaul

Commitment to Quality
