

# Tethered Closure

## A More Sustainable End-of-Life Solution for Bottles and Caps

As the public awakens to the impact of plastic pollution, global legislation is naturally following suit. EU Directive 2019/904 on single-use plastics requires beverage bottles to have closures tethered directly to the bottle for optimal disposal, reducing the risk of plastic items dispersing into the environment. This EU legislation may set a precedent for how other countries tackle single-use plastics, forcing every global brand to rethink their packaging formats for enhanced sustainability.

Jabil's tethered closures, available in screw-top and flip-top closures, are designed to help brands quickly meet their recyclability goals. Permanently fixing the cap to the bottle ensures that the entire package is recycled correctly while also providing a more convenient and hygienic consumer experience.

### MARKET APPLICATIONS

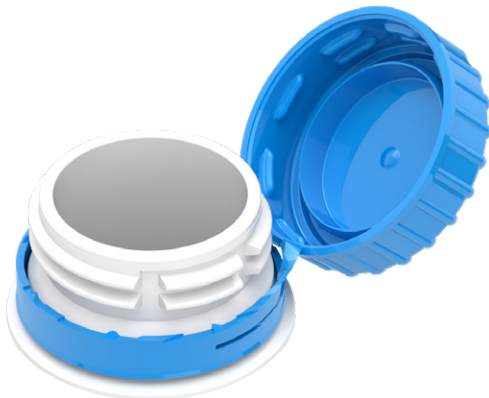

- Water
- Sports Drinks
- RTD Tea & Coffee
- Juices & Nectars
- Vitamins & Supplements

### PRODUCT BENEFITS

- Optimized for Recyclability
- Turnkey Compliance
- Improved Consumer Experience
- Maximized Efficiency
- Improved Brand Image

### PRODUCT FEATURES

- Stay Back Hinge
- External Tamper Evidence
- Available in PE & PP
- Linerless Plug Seal
